

What are the legal issues facing you in the operation of your pharmacy?

PHARMACY OWNERSHIP & MANAGEMENT

Overview

If you currently own or manage a pharmacy, or are thinking of doing so in the future, our experienced solicitors can provide all the assistance you need. Working closely with pharmacy brokers and financiers, we can guide you through every aspect of pharmacy ownership – from the acquisition of a business, to negotiating a lease, to employing and managing staff, through to the daily operation of your business – the team of property and business experts at Cropper Parkhill will be there for you. We can also assist you when it's time to sell your business, or when you are planning your retirement exit strategy, to ensure that your business is presented in the best light for sale.

We offer a complete service to our pharmacist clients, including regular client information sessions, a free newsletter, *PharmaLaw*, and our regular business update, *Bizlaw*. You may have already seen our regular column in *Retail Pharmacy*, with which we are proud to be associated.

Services

- ❖ Sale and purchase of pharmacy businesses and approval numbers
- ❖ Australian Community Pharmacy Authority approval for relocations and new pharmacies
- ❖ Finance, leasing and relocation negotiations
- ❖ Advice on business structures and entry and exit strategies
- ❖ Employing and managing your workforce including engagement and termination of employment
- ❖ Formation and dissolution of pharmacy partnerships
- ❖ Pharmacy profession advice
- ❖ Information and guidance on poisons and therapeutic goods legislation
